ISELP SPRING 2016

Edition 8

“Continuing Education at it’s best”

Jean-Marie Denoix, DVM, PhD,
President ISELP

ISELP CONTINUES TO GROW ON A GLOBAL BASIS

10 YEARS AFTER

May 19, 2016, The Plains, VA-Ten years ago, almost to the day, ISELP began its journey in a small Community Center in Middleburg, Virginia USA. Nearly 20 people, including Professor Jean-Marie Denoix, congregated at this venue which is about an hour outside our Nations Capitol, Washington DC.

Ten years later, our ISELP Membership is world-wide! We have exceeded 500 members from around the world. We have over 30 Certified Members and that number continues to grow each year. In addition, today we have student membership across the US, Europe, and Canada.

We started with just a couple of Global Sponsors, but today we now have 15 Global Sponsors and nearly 100 Module Sponsors worldwide.

ISELP is not just a growing association or organization; we are the “fastest growing equine sports medicine association in the world.”

Here’s a fun fact for you . . . as of our last US Module we have provided over 1,280 hours of actual educational

lecture, demonstration, and anatomy. This does not take into consideration the countless wet-labs, student programs, one day hands on programs, farrier days, advanced courses, and Industry events and activities.

Our future is now. ISELP continues on a path of excellence and with the growing amount of ISELP Certified Members we will continue to make our mark in the educational association marketplace throughout the world.

Thank you, on behalf of our incredible Board of Directors for making ISELP what it is today!

Your Board of Directors:

Professor Jean-Marie Denoix, DVM-President
Kent Allen, DVM-Vice President & Executive Director
Russ Peterson, DVM
Rick Mitchell, DVM
Duncan Peters, DVM
Erik Bergman, DVM
Aude Heitzmann, DVM
Barbara Riccio, DVM

It takes much more than a village to make ISELP into the wonderful association that we are. We are truly blessed to have 15 Global Corporate

Sponsors that provide not only our financial needs but also provide much of our direction and support. Thank you is never enough to this wonderful group of companies, they include:

Aria
Boehringer Ingelheim
Brightline Medical
Ceva
Dechra
Epica
Grand Circuit Products
Hallmarq Veterinary Imaging
Luitpold Animal Health
Multi Radiance Medical
Owl Manor Veterinary
Platinum Performance
Pulse Vet
Sound
Vetel Diagnostics

May 3, 2006, Virginia Equine Imaging hosting one of the First US Modules at Virginia Tech in Leesburg, VA.

ISELP Global Sponsors:

OWL MANOR VETERINARY™

This quarters ISELP Global Sponsor Profile features Owl Manor Veterinary. We are so pleased to present this platform to all of our Global Sponsors. We encourage each of our Members to reach out to Owl Manor Veterinary and all of our valued 15 Global Sponsors. Thank you for all that you do and below is a short overview on Owl Manor

OWL MANOR VETERINARY™

Owl Manor Veterinary™

Bringing New Life to Animal Health™

Point-of-Care Regenerative Medicine
ACT™ - Autologous Cellular Therapy
Tendons-Ligaments-Joints-Wounds

Pro-Stride Injection™
 ACT-Protein Solution
 (anti-inflammatory w/ IRAP)

ACT-PRP
 Platelet-Buffy Coat
 Concentrate

ACT-Cell Concentration
 Bone Marrow Aspirate
 (Mesenchymal Stem Cells)

Point-of-Care Regenerative Medicine • Treatment Under 30 Minutes • Natural Drug-Free Therapy

Stem cells, platelets, and growth factors are central to joint treatment and wound healing. Owl Manor Veterinary's Autologous Cellular Therapy (ACT™) portfolio of regenerative biologic products offers the convenience of point-of-care with high yield and clinically proven effectiveness. Platelets, biologically active tissue-derived growth factors (including IL-1-ra/IRAP), or stem cells are harvested from the patient and processed on-site for administration in less than 30 minutes. This offers convenience to the caregiver, cost savings to the owner, reduced stress to the patient, as well as reduced risk of tracking errors and disease transmission.

Pro-Stride (anti-inflammatory w/ IRAP) - advanced joint therapy treatment of concentrated proteins including IRAP/IL1-ra), cells, platelets, and growth factors. Published results demonstrating pain relief up to one year following a single injection (A. Bertone, AJVR, Vol 75, No. 2, February 2014). Immediate treatment in under 20 minutes (no incubation, no freezing).

ACT-PRP (Platelet - Buffy Coat Concentrate) - Platelet Rich Plasma with 9X platelet capture and ≥90% platelet concentration. PRP contains numerous growth factors that promote cell recruitment, and vascularization. 15 minute processing.

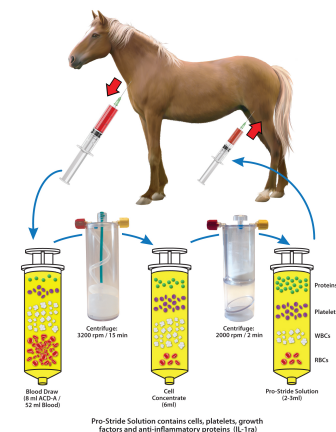

ACT-Cell Concentration (BMA) - Mesenchymal Stem Cell (MSC) point-of-care device. Dual buoy design eliminates need to filter bone marrow prior to processing. Natural fibrin matrix. Treatment in 15 minutes. 15 minute processing.

Owl Manor Veterinary is dedicated to joint preservation and advanced wound care treatment of companion animals. We are committed to innovative, effective, and efficient treatment through a combination of regenerative medicine, point-of-care autologous biologics, and complimentary technologies.

ISELP LAUNCHES NEW WEB SITE & SOCIAL MEDIA

April 20, 2016, The Plains, VA. Elizabeth Lorenzen, Multi-Media Marketing Manager & Carmen Musick, Administrative Support Director are putting the finishing touches on a fantastic new and greatly improved ISELP Website. Some of the many features of this site include: Improved functionality, user friendly, discussion forums, mass marketing email blasts for upcoming activities and registration. Electronic newsletters will be available. Global Sponsors, too, will have the benefit of this medium for information and product distribution. There will be much more information available in the very near future. This will, however, require a bit of a learning curve, says Elizabeth. Each of our current members will need to take a few minutes to update their profile and input a new password. Your user ID will remain the same as before. Updating information on your Practice will be necessary to auto-populate your listing on the ISELP Worldwide Directory map. Our Staff is here to help; so a little time and patience will go a long way. It will be well worth your time and effort. Also, our social media presence is gaining strength and our numbers are getting bigger and bigger each day. Please continue to Like and share our posts. This, of course, benefits both ISELP and your own practice. Feel free to reach out to Elizabeth with any questions, comments, and or concerns. You may contact her direct at iselpiz@gmail.com

Join Us In Italy, Kentucky, The Netherlands, British Columbia, and France for our upcoming Three Day Modules. Go to: ISELP.org for Registration Information

Past Module DVD's available for sale on our Website

Have A Question, Comment, or Concern?
