

# International Society of Equine Locomotor Pathology Certification Examination Requirements

Thank you for your interest in becoming an ISELP-Certified practitioner. The following information is provided to help you prepare for the certification exam.

## **Exam Eligibility Requirements**

To sit the exam, practitioners must:

- Have five years of equine practice
- Have been an ISELP member for at least one (1) year
- Have attended each of the eight (8) modules, both seminars and wet-labs, within a period of six (6) years
- Submit all required materials
- French candidates who are diplomats DESV may sit the exam

## **Required Materials**

The following materials **must be submitted two (2) months prior to the exam date**. Please review the material requirements carefully as candidates who submit incomplete material will not be considered. For your convenience, a **submission checklist** is provided on the following page.

### **1) Curriculum Vitae**

- Must include number of years in practice, duration of ISELP membership, photograph, and registration form.

### **2) List of Modules Attended**

- Word or PDF document
- Must include module topics and locations

### **3) Ten (10) Documented Cases**

- Cases must be prepared in ten (10) separate, clearly identified Powerpoint or Keynote files.
- Each case must include at least two (2) photos of physical examination, video of dynamic examination, and at least one (1) imaging procedure.
- Video clips should be integrated into the presentations as well as provided as separate files.
- Clinical examinations should be divided into separate clips – e.g. before blocks, first block, second block – rather than on a single lengthy recording.
- All diagnostic information must be included, but each video should provide unique information and should not repeat data.
- Ensure that all data within a case is from that case. If data from another case is included, explain why and provide clear indication of your objective.

- Ensure that you have completely examined each case. If a horse presents symptoms not directly related to the main focus of the case, discuss these symptoms or explain why you chose to disregard them.

#### **4) Ten (10) Scientific Papers**

- Papers must be from a minimum of four (4) different journals/proceedings.
- Submit only full scientific papers; abstracts are not acceptable.
- Provide a PDF or other full-color visual of your review using the same numbers, one (1) through ten (10).

#### **General Requirements:**

- Recognized abbreviations include: LF, RF, LH, RH, IA, US, RX, MRI, Scinti. All other abbreviations must be clearly introduced/explained at the first mention.
- Use international nomenclature.
- Use a minimum font size of 20 for Powerpoint/Keynote presentations.

#### **Submission Checklist**

- Materials must be provided as separate files on a single USB drive
- Ensure that all required materials are included:
  - Curriculum Vitae
  - List of Modules Attended
  - Documented Cases
  - Scientific Papers
- Materials must be submitted once as a single, complete package
- You must have previously registered for the exam and be submitting the materials two (2) months prior to the exam date.

#### **Submit your complete materials on USB drive to:**
